HARVEY KARP, MD

Dr. Harvey Karp is the author of *The Happiest Baby On the Block* and *The Happiest Toddler On the Block*. He is a renowned pediatrician who offers valuable information on managing fussy babies and challenging toddlers. He has been a pediatrician and child development specialist for 30 years. He is the most read pediatrician in America today and has appeared on Good Morning America, Dr. Phil, The View, CNN, MSNBC, and CBS Evening News. He has previously partnered with Prevent Child Abuse America to prevent Shaken Baby Syndrome. Dr. Karp is supported by America's top child specialists, including the former Surgeon General, leaders of the American Academy of Pediatrics (A.A.P.), the founder of Lamaze and the past president of Zero-to-Three.

Dr. Karp teaches families and educators about the "Calming Reflex," the virtual off-switch for crying that all babies are born with. He describes the first three months postpartum as the "fourth trimester," whereby the baby must adjust to the "out of womb experience." He teaches the Five S's for eliciting this calming reflex. Dr. Karp also teaches a simple approach that eliminates 50-90% of toddler tantrums in just days.
